

# HAIR HAPPINESS

THE BLOWWAVE BAR is set to educate Brisbane on the latest in hair technology. The salon now offers the exciting Global Keratin Treatment, which straightens and repairs hair naturally without harsh chemicals and results can last up to four months.

By infusing keratin deep into the hair cuticle, the GK Treatment uses hair's natural ingredients to achieve radiant shine, beautiful smoothness and healthy, manageable style. The treatment is designed for people who have curly, frizzy, over-processed or chemically damaged hair, so everyone can benefit from the GK Treatment. In fact, the more damaged your hair the better the results and the longer the treatment lasts. It deeply reconditions and repairs, making it more than just a straightening system. Make an appointment at the Blowwave Bar to receive this revolutionary treatment – your hair will thank you for it.

## defining eyes

EXPERIENCE THE ANCIENT art of threading at the newly opened WINKBAR Chermside. The revolutionary hair removal technique is already hugely popular overseas with celebrities and high street beauty salons professing that threading is fast becoming the preferred way to shape brows and remove facial hair.

The unique practice involves a qualified technician twisting and rolling a specially formulated fine cotton thread along the surface of your skin, where it painlessly entwines itself and cleanly removes hair directly from the follicle.

WINKBAR also specialises in Xtreme Lashes, a semi-permanent eyelash extension treatment that achieves natural-looking results. The extensions are carried out by adding one synthetic lash to one of your natural lashes with a medical-grade adhesive. The procedure is both relaxing and painless, and the results are breathtakingly beautiful.
